

Working Toward Sustainability Part 2– Present by SPUUF Social Action & Green Sanctuary Committee
10:00 AM – October 11, 2009

Caring for our Earth

We live in a time where we face multiple environmental challenges. Our UU communities offer a place to turn, given these challenges, with literature about the natural world, celebration and reflection to help us on our way. Last spring SPUUF members committed to some individual actions; things they felt could make a difference in reducing their carbon footprints or bring about sustainability in general. Come join together at SPUUF for the first Green Sanctuary service of the year. We'll revisit our commitments made over the summer and learn about other ways congregations have begun to fulfill their responsibilities and efforts for our home, earth.

This service may be interesting to pre-teens and young adults, as well as the general fellowship.

The Unitarian Universalist Fellowship is located at 3116 Algoma Street, Stevens Point, WI. Services and religious education for children both start at 10:00 AM. Childcare is available during the service. The UU Fellowship is dedicated to the acceptance and participation of persons in the full range of our Fellowship and society without regard to race, color, sex, disability, sexual identity or orientation, age, or national origin.
